

How to start your own 4Water project

1. Got an idea?

Anything can be exchanged 4Water. You can be as innovative as you like! Dance, languages, yoga, football, chess-class, rowing, candle making, whatever you can think of. Check out our existing 4Water community projects for inspiration or be creative and start something completely fresh!

2. Pick a city and venue

When you know what city you want to start your 4Water project in, you'll need a venue/time. To get a free room, try enquiring at your local university, community hall, music venue, pub or even church/mosque. If the weather permits, even the park is an option!

3. Set up classes

Think about your class organization and prices. What you charge will depend on what you're going to be teaching/exchanging and to whom you are teaching it. Generally, 4Water projects should be affordable and accessible for most people in your target population whilst charging enough to get as much water as you can! Some pricing options are pay per class, pay per day, pay per course, pay per month.

4. Send us your information

Send us an email with the above information and include your name, email and telephone number to weare4water@gmail.com. After a verification process, we will then set up your very own personalised 4Water fundraising page!

5. Share your story

Tell your friends about your innovative project and the incredible things you are doing to raise money for 4Water!
